Thanks to Scott Wiener and his friends in Sacramento that push trickle-down housing through oppressive state bills we have less options than we once had to protect our neighborhoods from bad designs like 2955 Mission.

PROTECT OUR ROOFTOP SOLAR PANNELS FROM SHADE

This 85' tower is guaranteed to put a dark shadow nearby rooftop solar panels that cut fossil fuel use and reliance on PG&E's grid system. Join us for the meeting and find out what we can do to protect and expand our solar grid system.

Some neighbors who may be affected by potential shadows from the tower:
Abel Gonzalez Apartments, Mission Nursery Children's Center, 2903 Mission, 1066 Capp St., 3850 26th St., 2903 Mission.
