Assemblymember Catherine Stefani

Subject: Please vote NO on SB 607 (Wiener)

Stop a backroom deal on dangerous legislation that will gut CEQA. We just learned last night that SB 607 (Wiener) will be included in the Governor's budget trailer bill and the final language will be confirmed this Friday, leaving no time for public review or analysis or input.

We are concerned that almost every extreme feature of SB 607 will remain in the bill. Worse still, the bill is proceeding under the cloak of darkness, with none of the transparency of normal legislation.

This appears to be another effort on the behalf of special development interests that undermine democracy and environmental protection at the expense of Californians. Please reject these tactics.

Please vote NO on SB 607 (Wiener).

Thank you.

Sincerely,

Mari Eliza
